The 1955 NURSING OUTLOOK Index Can Help You

The goal of this index is to list every item of possible future interest that appeared in the 1955 issues of *Nursing Outlook*. In it you should be able to find the name of every author of a signed article, of every organization, and of most persons whose activities were recorded. There are references to each of the many programs and activities of the National League for Nursing, to nursing education in all its branches, to hospital and public health nursing service, and to each of the nursing specialties.

For the benefit of those seeking a particular article or report, or a specific subject, we have used about 300 subject headings, exclusive of the names of persons or organizations. With the exception of reports of meetings and conventions, most of the material that appears under the many subdivisions of the National League for Nursing also appears under one or more subject headings.

In order to keep the columns of the index uncrowded and easy to follow, we have used as few sub-headings as possible, and we have used sub-sub-headings only for the National League for Nursing entries. This decision raises its own problems. For instance: so much of *Nursing Outlook's* contents is concerned with nursing education that to enter all relative items under that one heading would make the index unwieldy and hard to use. Therefore such sub-topics as Curriculum, Education Programs, Graduate Education, and many others have been entered as main headings. Under Nursing Education we have used but three sub-headings, basic, collegiate, and inservice. The decision to use a main heading for a sub-topic is usually based on the number of entries it has accumulated.

The inconsistencies that sometimes result have other advantages than that of filling space. The rise of any new trend, the increased emphasis on any factor in the development of professional nursing that may have started during the year, can be easily indicated by gathering the pertinent items under a new heading. Among the headings used for the first time this year are Education Programs, Grants, and Methodology.

An entirely different problem is posed by the topic which is represented by only one article during the year. When the title of the article begins with the subject-heading word, we often use what is called a title entry. Thus the pamphlet, *Allergy Diet Foods* is entered by title and without a subject head; so is the editorial, Brotherhood Week. But we have used a new heading, Communication Arts, for Mr. Knepler's article on "Communication in Nursing Education," because there will be other articles on that topic in 1956.

The third annual index of *Nursing Outlook* differs from its predecessors in a few details. Chief of these concerns the book reviews. Instead of keeping them together in a group at the end of the letter B, as heretofore, this year we have distributed all book reviews in the general file. We believe that the searching saved by this change will more than compensate for the loss of a separate book review listing.

Do you approve or disapprove this change? We would very much like to know. If you have any other approvals or disapprovals or suggestions for improving the *Nursing Outlook* index, will you please write us about them?

The index to *Nursing Outlook* for the past year has been sent to all schools of nursing throughout the country, for their libraries, and to a small "permanent" mailing list. Any subscriber who requests it may have a copy, while the supply lasts. There is no charge.

NURSING OUTLOOK

INDEX TO VOLUME 3, NUMBERS 1 - 12 — JANUARY - DECEMBER 1955

THE material in this index is arranged under subjects, authors, and some titles.

THE page numbers included in each issue of Volume 3 are shown below:

January	pp. 1- 56	May	pp. 241-304	September	pp. 457-512
February	57-112	June	305-352	October	513-568
March	113-168	July	353-408	November	569-624
April	169-240	August	409-456	December	625-672

THE following abbreviations are used in this index:
(abs.) abstract (ed.) editorial (exc.) excerpt (L) Letters to the editor (rev.) review (illust.), illustration

OTHER abbreviations used throughout the index are:

AHA	American Hospital Association	NAPNE	National Association of Practical Nurse Education
AJN	American Journal of Nursing	NASOP	Nursing Advisory Service for Orthopedics and Poliomyelitis
AMA	American Medical Association		
ANA	American Nurses' Association	NFIP	National Foundation for Infantile Paralysis, Inc.
ANC	Army Nurse Corps	NLN	National League for Nursing
APHA	American Public Health Association	NSNA	National Student Nurses' Association
ARC	American Red Cross	NSPB	National Society for the Prevention of Blindness
FCDA	Federal Civil Defense Administration	USPHS	United State Public Health Service
ICN	International Council of Nurses	WHO	World Health Organization
